

61000 MoS2 grease EP-2

Document version: November 29th 2017

Description

This MoS2 EP grease has been specially developed for use under the most extreme load. This grease is extremely suitable for applications where high loads and low speeds of revolution are present. The addition of Molybdenum disulfide ensures very good lubrication, even after grease leaks due to excessive temperature increase.

According to the specifications of

DIN 51502
ISO 673 / L-XCC IB2
