

65000HDB Lithium-Complex Grease EP 2/3 Blue

Document version: November 29th 2017

Description

MPM Lithium Complex Grease EP 2/3 Blue is a high performance heavy duty grease for extended service intervals. This grease is produced with high quality mineral base oils combined with EP additives to achieve superior adhesion, high water resistance and very good anti-wear properties.

The high stability provides excellent protection against rust and corrosion even under severe conditions.

Ideal for use in shipping, agriculture, automotive and truck sectors, in applications such as propeller shafts, universal joints, water pumps, electric motors, wheel bearings and PTO (power take off).

According to the specifications of

DIN 51825 / KP2/3N-30

Packing units

ART. NO.	VOLUME	ITEMS PER UNIT	ITEMS PER PALLET
65018HDB	18 kg	1	28
65050HDB	50 kg	1	12
65185HDB	185 kg	1	2

Typical characteristics

TEST	VALUE
Colour	blue
NLGI classification	2/3
Temperature range	-30 – 150 °C
Drop point	> 280 °C
Copper corrosion test	< 1B
Soap thickener	> 450 kg Lithium-Complex
