Technical Data for:

MARA COOLANT G12+ CONCENTRATE

Description:
MARA COOLANT G12+ CONCENTRATE is based on ethylene glycol. Means for cooling and protection of the engine from freezing and corrosion. Contains highly efficient corrosion inhibitors and anti-foaming additives. Does not contain silicates, amines, phosphates, or nitrites. BEFORE FILLING THE COOLING SYSTEM, IT MUST BE DILUTED ACCORDING TO THE MIXING TABLE!

Benefits:
- Provides protection for the cooling system for up to 5 years or 250,000 km, reducing the need for frequent replacement
- Resistant to degradation and loss of efficiency at high temperatures
- Provides engine protection against corrosion, freezing and overheating.
- Free of silicates, nitrites, amines, and phosphates (Si-OAT technology), reducing environmental impact and extending the lifespan of the cooling system

Specifications and approvals:
VW TL 774-D
VW F (G-12
VW G-12+)
MB 325.3
Ford WSS-M97B44-D
MAN Type 324 SNF
MTU MTL 5048

Storage:
Please store in a well-ventilated, dry, and cool area, away from direct sunlight and out of reach of children. Additional information can be found in the safety data sheet.
