

71000 Biodegradable Degreaser Extra

Document version: November 29th 2017

Description

Bio degreaser is a specially developed water-based biodegradable degreaser. It is an almost neutral micro-emulsion and completely free of hydrocarbons. MPM Bio Degreaser contains no harmful additives. It is safe to use on aluminum, fiberglass, plastic, rubber and painted surfaces. Ideally suited for cleaning interior, different type of floors, garages and workshops. The MPM Bio Degreaser leaves a nice shine on the treated surface.

Usage

Depending on the to be treated surface mix the Bio Degreaser with 2%-3% water up to a maximum of 10%. Apply with a brush, sponge or high pressure equipment . Then rinse with clean water. The use water of higher temperature increases the cleaning ability.
