

A204 PTFE Spray Aerosol

Document version: November 29th 2017

Description

This PTFE-spray is a PTFE-based water-repellent lubricant and protection product for use in almost all industrial sectors, with a temperature resistance from -50°C to +210°C. MPM PTFE Spray can be used as a lubricant on sliding surfaces, guides, wires, cutting tools, pulleys, conveyor belts, gears, joints and pawls. MPM PTFE Spray can also be used for guides of sliding roofs, locks and hinges in industry and the automotive and shipbuilding sectors.
